

Trisus[®] Pricing Analyzer and Transparency

Maximize pricing transparency and optimize pricing strategies

Trisus Pricing Analyzer and Transparency provides the functionality to meet your current pricing challenges

Comprehensive & Defensible Pricing

- Adjusts pricing while remaining competitive
- Uses claims data to perform revenue monitoring
- Assesses impact of 'Lessor Of' payer contract

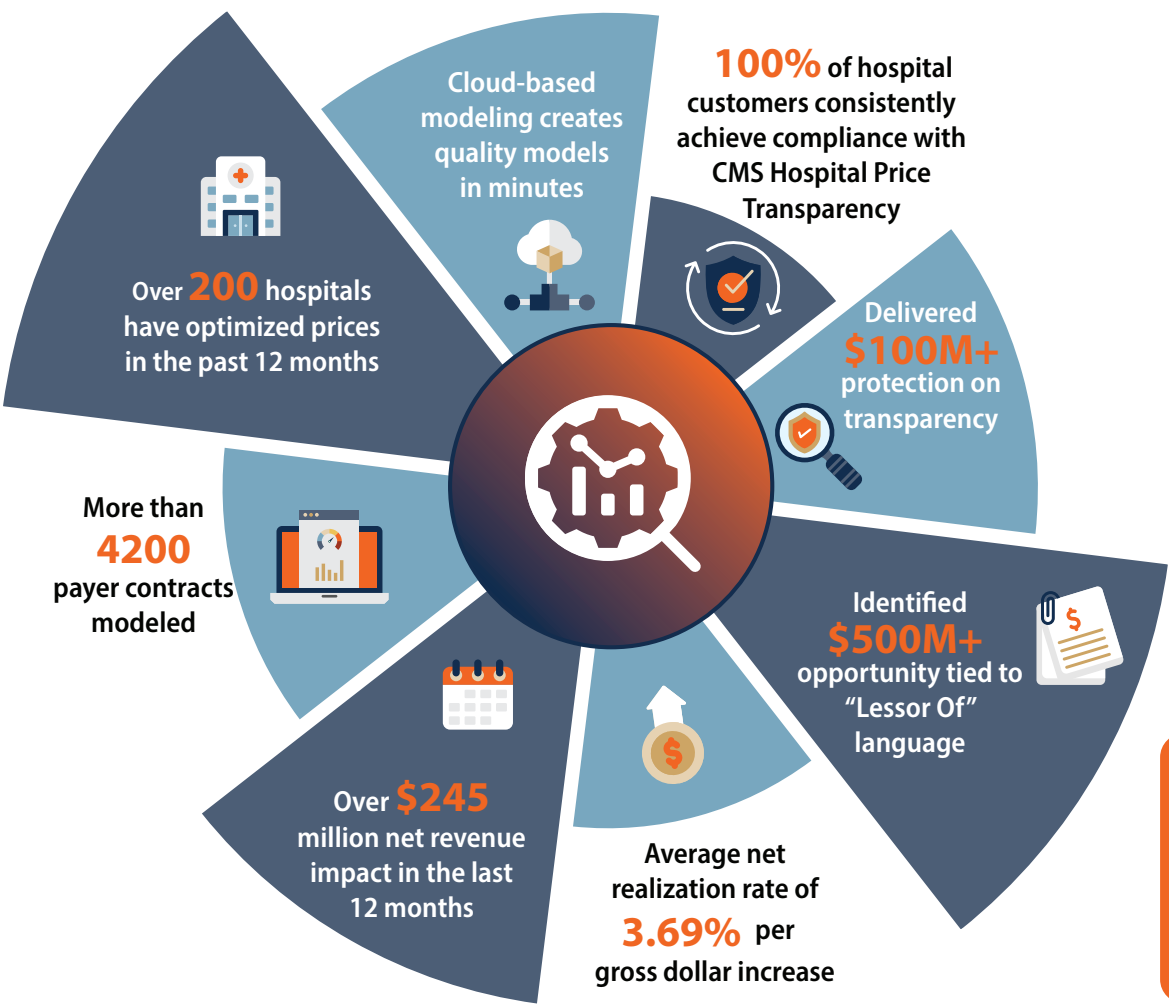

Reimbursement Modeling

- AI-powered contract data extraction
- Adapts to payor and competitive conditions

Pricing Transparency

- Automates Machine Readable Files (MRF)
- Hosts shoppable services sites

Enhance your Pricing Strategy

Our Pricing Transparency solution:

- Reduces the manual burden of creating CMS compliant machine readable files (MRF) with automation
- Leverages Trisus Pricing Analyzer and Transparency to understand peer hospital pricing related to shoppable services
- Hosts shoppable services site
- Ensures compliance with federal transparency requirements

THE IMPACT:
Increased net revenue to better serve your community while ensuring compliance and competitiveness.

What Sets Us Apart?

Integration

Seamless updating of price recommendations into EHR and automated validation

Pricing Services

Reimbursement Model Maintenance:

- Manages the input of complex payor terms
- Handles contract modifications, additions, and removals

Professional Consulting Services:

- Revenue Analytic Support Service
- Strategic Pricing Review

The Results

Competitive, accurate and optimized pricing models by payor and service line
